13 December 1984

MEMORANDUM FOR: Distribution
FROM: [REDACTED]
Director, Planning and Policy Staff
SUBJECT: DCI Report to the President

25X1

1. The DCI has modified his earlier tasking for his report to the President. The initial input is now to be all-source. With this in mind, I am requesting that you prepare your response on an all-source basis rather than on an unclassified basis as we had earlier discussed. As was the case last year, the DCI may also have a sanitized version of the report prepared. I apologize for the inconvenience and the tight deadline this will impose.

2. We intend to develop the report in two parts: a discussion of substantive accomplishments, and a discussion of functional accomplishments. The NIC earlier provided us with an outline of issues of substantive concern that we intend to use for the forthcoming Annual Report to the Congress. I believe this outline also is appropriate to this task. For purposes of input, the outline is only a suggestion, and should you have something of significance to report outside the subjects suggested, please report them.

3. I would like to see six to eight examples of significant contributions to substantive intelligence reporting (collection or analysis) from among the issues contained in Part I of the outline. [REDACTED]

25X1

[REDACTED] I would also like to have no more than six examples from each of you of significant functional accomplishments for the year according to Part II of the outline.

4. To repeat, the accomplishments cited should be focused, sharp and specific; they can be at any level of classification and/or compartmentation. Your contributions must arrive in this office no later than COB 14 December. Your responses and any questions should be directed to William P. Blake [REDACTED] of the IC Staff.
